HONGKONG, HONDAY, APRIL 19, 1880.

THERE is every likelihood of the scheme | jects that bode no good for the universal being perfected by the Secretary of reign of peace. It also shows that the State for the Colonies which we fore great Northern Power has been keenly shadowed in our leading article of the watching the course of events in England, 20th ultimo. A substantial increase and has now begun, or fancies she has the position of toveraby or lashing beaun to rean the fruits of what she the Colony has been raised to a much policy of England. At all events, it is a higher position than it has bitherto held strange coincidence that this announce. in the Colonial Office list, and it would ment should follow so closely upon the be promotion of a kind that would not result of the elections at home. It is officially reflect upon Mr Hennessy's carnestly to be hoped, however, that the administration here were he to accept it, expectations of Russia may not be re-The arrangement may be altered, but alised. The Pall Mall Gasette, however when the last mail left home it was in extreme its pro Besconsfield views may well-informed quarters considered not be, made a very just remerk lately when unlikely that the present Governor of it said that little reliance could be placed Hongkong would be the next Governor upon the permanence of the Imperial of Tasmania, in succession to Mr Weld rule in Russia. What will happen in who comes out to the Straits. As we be- the event of the present Czar being refore stated, the salary Mr Weld drew as moved? Whether the fifteen millions Governor in Teamsnia (£3,500 and no will be raised at all, and whether they allowance) was, only a little more than will be subscribed for in London, Paris, half the salary attached to the post of or any of the German or Dutch vities, Governoz here, but the substantial in- are what may be termed very open crease now decided on-probably as much with the view of getting out of the Hennessy dilemma as with any other object is such that there could be no feeling of going down the ladder were Mr Hennessy to take it. Besides there is the important consideration which we have before set forth that probably, more with regard to Colonial gubernstorial appointments than any thing blacit is true that the real value of the position is not to be gauged by the mere amount drawn. In Tasmania, for instance, the purchasing power of a shilling, with the Governor as with every body else, approaches to that of a dollar here. We sincerely hope and we have every Mr Gibbone has to-day assumed his duties reason to believe that if the appointment be offered to Mr Hennessy he will accept it. His Excellency's health, mental and physical, has suffered considerably from one cause or another since he arrived here three years ago (three years ago next Thursday, to be precise), and a change from the incessant hand is against every man's and every chance of so ultra-taberal a generalite man's band is agriced him would be as invine a place in the Ministry

WOLTY and duplessantness of a situation wherein like the Ishmaelite of old hi welcome a relist to Mr Hennessy as his removed would be aud be acknowledged to be-a Heaven-sent boon to the people of this Colony. We sincerely hope the Proce left Sugapore for Masse on Securday, 4.30 p.m. - Meeling of the Members of intelligence which we have received and that the has on board 21 Officers and has the best foundation. We are the 311 men as a reinforcement to the troops in a more inclined to believe it because we Macao a considerably greaters number have it now from more than one source. then we have already sected. This Noon, subject to rept and landing but proves the accuracy of what we wrote on the 19th ultimo, viz -that we had the best authority for haming Mr Robinson of the Bahamas as having been appointed Governor of the Straits Settlements and that there were some substquent rearrangements at home which altered the programme so as to bring about a distribution of the prizes and honours which was not at hirst contemplated. It may be said that the acceptance by Mr Weld of an £800 post in preference to one bringing him in £3,500 a year is somewhat extraordinary, difficult to understand if not in truth unbelievable. Is it anything more out of the way than Sir William Robinson's preferring £2,500 a year in. Western Australia to £6,000 a year in the Straits Settlements. These moves have always a strong reason behind them. A desire on the part of the Colonial Office to give an officer who has been taking the bit between his teeth thorough snubbing; a feeling of helplessness on the part of a Governor who has estranged every section of Society. from him and is ny longer held in respect by the community over whom he presides, neither socially, politically nor morally held in respect; a gradual but sure and irritating departure, further day by day, from the mens sana in corpore sano which in so emphatically a sine qua non of successful administration or successful work of any kind; any one of these may be the realish newspapers, are invited to call at son for a Governor changing his post. In Mr Hennessy's case probably all the three causes would combine in calling for his removal hence. We care not for what reason he goes, we would not even grudge him the Knighthood the Roman Catholic organ has promised him if only he would leave us to quieten down again into a state of peace and good will, security. and contentment under some better man as Governor. If Mr Honnessy has the enportunity afforded him to go to Van Dieman's Land, we sincerely hope His April, by the Very Bev. Dean Rutcher, Excellency will have the good sense and that consideration for his own comfort and the peace of the public which will make him "stand not upon the order of his going, but go at once."

THE pext performance of our Amateur week, Tuesday, the 27th inst., when will be performed the comedy " New Men and Old Acres." As usual, the entert linear is certain to be a treat ! Indeed, while each performance has of course its peculiar excellences, every appearance of the Cub of late years has been a success. There are many sound reasons for believing that "New Men and Old Acres" will not be an exception to this good rule.

An accident, happily of a trifling nature, has occurred to the S. S. Amoy. The ves sel was at anchor in the Canton River yesterday when a junk was observed bearing down upon her in such a manner as ! render a collision inevitable, when Captain Tan results of Professor Nordenskiold's Drewes ordered more cable to be paid out and the engines to be put full speed astern. The rapid running out of the cable caused the hawse pipe to be carried away, and the steamers proper ly built and manned; but, chain ploughed into the ship's side, tearing up about fifteen feet of her plates. The wishes of the foreign Ministers at Paking expressed to their various admirals to concentrate their fleets at Shaughai has brought no fewer than fourteen men-of-war into the harbour—four American, three French, three British, three German and one Russian, and others are expected in the course of a few days. Most of the Russian warvessels are at Fladiyostock and the Japanese ports. The five additional vessels which according to Renter, have left for China, will give Russia a most formidable fleet in the Far East. If there is any trath in a ramour which reached us from the North yesterday, in case of an outbreak of hostilities between Russia and China it might be discovered that no inconsiderable numbers of merchant steamers that to-day fly the Chinese ensign had become possessed of the right to display that of another nationality.

> THE NEW CUNARD LINE. The arrival of the Batavia, the first steamer of the new line, is thus de-

scribed in the Times of India --The vessel duly arrived on Saturday night, and anchored off the Custom House bunder, as stout and taut a steemer as any that has ploughed the Indian Ocean, The Batavia sailed from Livers pool on the 12th February last with a general cargo and sixteen first-class passengers. She touched at Port Said and Suez on her way out, at the former port for coals and water, and experienced good weather the whole way. At 8 p.m. on the 4th instant, however, the vesset touched a sandbank off Perim : there was a dense haze at the time; but she got off soon afterwards without any apparent damage and proceeded on her way, accomplishing the voyage in about thirty days. The Batavia is come, manded by Captain Arthur Taibot, a fine specimen of a British sailor. He has commanded twelve different vessels of the Cunard Line, was several years back in the service of the Bombay and Bengal Steam Navigation Company, and was also for some time engaged on the "tes chippers" that ran between Shanghar and London. The tonnage of the Balana is 2.563 gross, with 480 nominal horse-power; she is brigerigged, and measures 127 (section rength of less and 40 feet in breadth of beam. She was built in 1870 by Denny Brothers of tion for 150 first-class and 800 steerage Dassengers lier sciond is well repullated, is specious and tastefully decorated. and the general arrangement on board is highly satisfactory, redounding no little credit on the captain and officers, and exhibiting a very good sample of accounts moducion that can be afforded to passengers who might patronise he line The apper deck of the vessel forms and unbroken momensale from end to end t each compartment of the seloon is sup-

THE CHINA REVIEW.

HE widely-expressed regret at the discontinuance of Notes & Queries on China and Japan, has induced the publishers of this journal to issue a publication similar in object and style, but slightly modified in certain details. THE CHINA REVIEW, or Notes and Queries on the Far East, is issued at intervals of two months, each number containing about 60 octavo pages, occasionally

illustrated with lithographs, photographs woodcuts, &c., should the papers published demand, and the circulation justify, such The subscription is fixed at \$6.50 postage paid, per annum, payable by non-residents in Hongkong half-yearly in advance. The publication includes papers original

and selected upon the Arts and Sciences. Ethnology, Folklore, Geography, History, Literature, Mythology, Manners and Cus-toms, Natural History, Religion, &c., &c., of Chine, Japan, Mongolia, Tibet, the Eastern Archipelego and the "Fur East" generally. A more detailed list of subjects upon which contributions are especially invited is incorporated with each number. Original contributions in Chinese, Latin, French, German, Spanish, Italian or Por-tuguese, are admissible. Endeavours are made to present a resume in each number of the contents of the most recent works bearing on Chinose matters. Great attention is also paid to the Review

Notes and Replies are classified toge ther as "Notes" (head references being given, when furnished, to previous Notes or Queries), as are also those queries which though asking for information, furnish new or unpublished details concerning the matter in band. It is destrable to make the Queries proper as brief and as much to the point as possible.

The China Review for July and August. 1875, is at hand. It says that forty-two essays were sent in to compete for the best paper on the advantages of Christianity for the development of a State. All our learn ed societies should subscribe to this scholarly and enterprising Review. It is a sixty paged, bi-monthly, reportory of what scho lars are ascertaining about China. The lecture on Chinese Poetry in this volume i alone worth the price of the Review. Address China Review, Hongkong.-Northern Christian Advocate (U.S.)

Trubner's Oriental Record contains the fol lowing notice of the China Review ;- "This is the title of a publication, the first number of which has lately reached us from Hong kong, where it has been set on foot as some respects a continuation of Notes and Queries on China and Japan, the extinction of which useful sorial a year or two ago has been much regretted in Europe as well a in China. Thepresent publication, judging by the number now before us, is intended t occupy a position, as regards China and the neighbouring countries, somewhat simils to that which has been filled in India by th tention that has been bestowed of late year Chronometers, Watches, Jewellery, npon the investigation of Chinese literature antiquities, and social developments, to sa nothing of linguistic studies, has led to th accumulation of important stores of inform ation, rendering some such channel of pub licity as is now provided extremely desir American and English Stores, Books, able; and contributions of much interes of the foreign consular services, the Chines American Newspapers and cheap Re- Customs' corps, and the missionary body among whom a high degree of Chines scholarship is new assiduously cultivated and who are severally represented in the ara number of the Heview by papers highl Watches, Jewellery, Charts, Binocu- creditable to their respective authors. honour is deservedly given, an excelled summary is presented of the chronological problems and arguments involved in cor nexion with this important work. Som translations from Chinese novels and play are marked by both accuracy and freahnes of style; and an account of the career the Chinese post-statesman of the eleventh century, Su Tung-p'o, by Mr. E. C. Bowra, is not only historically valuable, but is also distinguished by its literary grace. Beside notices of new books relating to China and the East, which will be a useful feature of the Review, if carried out with punctuality and detail, we are glad to notice that 'Notes" and "Queries" are destined to find a place in its pages also. It is to be hoped that this opening for contributions on Chinese subjects may evoke a similar degree of literary seal to that which was displayed during the lifetime of its predecessor in the field, and that the China Review

may receive the support necessary to insure its continuance. The publication is intend-

ed to appear every two months, and will

erm a substantial octavo magazine.

This paper is now issued every day. The subscription is fixed at Four Dollars per annum delivered in Hongkong, or Seven Dollars Fifty Cents including postage to Coast ports.

It is the first Chinese Newspaper ever issued under purely native direction. The chief support of the paper is of course derived from the native community, emongst whom also are to be found the guarantors and securities necessary to

place it on a business andlegal footing. The projectors, basing their estimates upon the most reliable information from the various Ports in China and Japan,from Australia, California, Singapore, Penang, Saigon, and other piaces frequented Kin Kiang by the Chinese,—consider themselves Powan justified in guaranteeing an ultimate Sir J. Jeejeebho circulation of between 3,000 and 4,000 copies. The advantages offered to advertieers are therefore unusually great, and the foreign community generally will find it to their interest to avail themselves of
